WORK EXPERIENCE

Youth Geekers **Feb 2026 – Present**

UX AND PRODUCT *DESIGNER* ***(Freelance).***

Tunis, Remote

- Freelance UX & Product designer for a design agency serving fintech and B2B trading clients across the MENA region, owning end-to-end design from research and flow mapping through high-fidelity prototyping in Figma.
- Designed a 46-screen onboarding flow for Nowe Money, a multi-currency fintech platform, covering both personal and business account creation, translated confidential compliance flow maps and diagrams into an intuitive, fully prototyped UI now live in production.
- Designed and launched the website for EPIC Trading, a Dubai-based B2B commodity trading firm, from scratch owning the process end to end from initial research through final UI. The client provided a large volume of industry and business information to incorporate, so the core challenge was organizing and structuring that content into a clear, navigable user experience approved by the client and live in production.
- Designed 18 SEO-optimized landing pages for Nowe Money, including interactive financial tools such as currency converters and FX rate calculators, as part of the company's organic growth initiative. All pages have since gone live.
- Led a full redesign of Nowe Money's homepage and core landing pages after the client requested a more modern brand presence to compete with rivals, conducted competitor research to define the new direction, kept the existing design system's fonts and colors while enhancing the visual identity, and delivered fully responsive layouts all live in production.

DevSync **Feb 2025 – May 2025**

UX/UI DESIGNER ***(Internship)***

Tunis, Remote

- Conducted competitive analysis to identify design gaps and opportunities.
- Created user personas and journey maps to identify user needs and pain points.
- Defined the information architecture and website navigation.
- Created user flows and sketches to map key interactions and layouts.
- Designed a complete e-commerce website with an integrated Amazon affiliate program, from low- to high-fidelity UI.

EDUCATION

Higher Institute of Arts and Multimedia **Sep 2022 – June 2025**

Bachelor's Degree, Multimedia Communication *Manouba, Tunisia*

- Graduated with High Distinction (FR: Mention Très Bien)
